

Brady TAGUS™ printers The value of versatility.

Outperforming Expectations: Brady's full line of Thermal Transfer Printers perform under the toughest conditions. Designed to work with our easy-to-use software applications and our full range of Brady industrial materials, these printers give you the sharp, professional, cost-effective labels you need.

Brady Tagus printers offer an industrial powerhouse in a small package. Built with a durable die cast aluminum print mechanism, Brady Tagus printers are designed to print on a wide range of materials – including Brady's thicker, raised panel labels. With 203 or 300 dpi thermal transfer printing, you can count on Brady Tagus printers to produce clear, durable labels for a variety of applications.

Easy to use:

- One-button calibration of media – saves time and materials
- Easy to navigate two-line LCD menu display on the T300 model
- Three-button user interface with light indicators on the T200 model
- Fast supply loading – instructions embossed on the frame
- Small footprint – saves room in your work area

Versatile labeling materials and features:

- Prints up to 4" across
- Designed for use with Brady performance materials including B-593 Raised Panel Labels and single-sided PermaSleeve™ Markers
- 300 dpi field installable options for the T300 model include: internal rewind, cutter, "peel and present" feature, and internal Ethernet (LAN)

Reliable and affordable:

- A great value for a durable industrial-grade printer
- To meet customer volume demands, print up to 3500 labels per day, five days per week

TAGUS™ THERMAL TRANSFER PRINTER

The performance you need for your most demanding applications.

Sharp, fast printing: With print resolution of 203 dpi for the Brady Tagus T200 and 300 dpi for the Brady Tagus T300, your labels and signs will always be sharp and professional looking. And with a print speed of up to 6" per second, you can get all your sign and labeling jobs done fast (recommended 2" per second for optimum performance).

Versatile label printing options: Brady Tagus printers work with a variety of Brady specialty materials to give you more cost-effective labeling options. The printer accepts materials from 0.75" to 4.65" wide and 0.25" to 99" tall, with a maximum print width of 4.25" for big, bold labels whenever you need them. Ribbon core is 1", ribbon length is 1,476'.

So much power in so little space: When workspace is at a premium, Brady Tagus printers are an ideal solution, with space-saving dimensions of only 10.3" H x 9.8" W x 18.06" D. The T300 printer offers 8MB DRAM (T200 model has 4MB DRAM) and 2MB memory and Serial, Parallel, USB, Optional Ethernet (LAN) connectivity, so it's always ready to work for you.
