The Perfect Combination

DuraLabel Printers with the bundled DuraSuite Labeling Software make OSHA required label and sign printing fast, easy and accurate.

The Arc Flash software prints on all DuraLabel 4" and larger Health & Safety Die-Cut Labels. Plus, new advanced features allow Arc Flash Label data to be imported directly from a spreadsheet for rapid data entry – again and again. DuraSuite software can also print RTK/NFPA, pipe marking and custom labels and signs in all DuraLabel sizes.

DuraSuite™ Labeling Software

Create these and more using DuraSuite Labeling Software and DuraLabel Printers!

DuraLabel Arc Flash Supplies are: NEC, NFPA 70E, CSA Z462 - compliant

- DuraSuite's Arc Flash template provides simple "fill-in-the-blank" formatting so Arc Flash labels follow NFPA 70E and OSHA 1910.1200 codes and always look professional.
- Use one of the many included Word templates to print on Two-Color Vinyl for completely customized Arc Flash Labels.
- Two-Color Vinyl and Die-Cut Labels are resistant to: UV, Most Chemicals, Moisture and Abrasion
