INSULATED TOOLS

• **PRICELIST**

OEL Insulated Tools

Insulated tools are beginning to emerge as a result of electrical safety related work practice 1910.331 0 .33 OSHA standards, to safeguard personnel as well as equipment that is susceptible to shorting out and creating spiking surges to electronic apparatuses. Compliance with these standards will reduce the number of electrical accidents resulting from unsafe work practices by employees. OSHA has enacted laws making it mandatory for the electrical industry to develop and implement safety procedures, provide safety equipment, and train employee who are exposed to 50 volts or more to ground. Every insulated hand tool we manufacture and sell is rated for exposure up to 1000VAC and di-electrically tested at 10,000VAC. These tools meet or exceed ASTM F1505-01 and IEC 900 Standards for Insulated Hand Tools. These tools are necessary for compliance with OSHA 1910.333 (c)(2), and NFPA 70E 2004. The insulating material used is impact resistant and flame retardant. Two-color insulation makes inspection easier which adds to the overall safety. If the yellow under layer is showing, the tool may no longer be insulated properly and should be considered for replacement and removed from service. OEL is capable of customizing and supplying any tools that require protection up to 1,000 V. OEL will also cus-tomize sets to meet your unique tool needs. Why buy standard sets that have unneeded tools? With OEL you get the largest amount of 1000V American Made insulated tools in the world.

MANUFACTURED FOR USE IN COMPLIANCE WITH:

- Meets IEC 900 Standard for Insulated Hand Tools
- Exceed ASTM 1505-01 Standards for Insulated Hand Tools
- Helps meet OSHA Requirements 29 CFR Part 1910.331-335 Subpart S; 29 CFR Part 1910.269 Subpart K
- Meets NFPA 70E Requirements
- Tested to 10,000VAC and rated for 1000VAC Maximum Exposure
- Impact Resistant and Flame Retardant

Lifetime Warranty

As a Key Manufacturer of double-insulated safety hand tools, tested to 10,000 VAC, for work on any electrical circuits to 1000 VAC / 1500 VDC for protection of people, property, production, and performance, OEL guarantees the complete tool FOR LIFE. This LIFETIME WARRANTY includes the mechanical parts of the tools, provided they are used for the purpose for which they are intended, and OEL's insulation is guaranteed to be free from defects in material and workmanship FOR LIFE. Any product failing to conform to this warranty should be sent to OEL Worldwide Industry, where the product will be inspected than repaired or replaced.

Information

COMBINATION TOOLS:

TORQUE LOADING

- THESE TOOLS WERE DESIGNED TO PROVIDE A GREATER AREA OF FORCE APPLICATION, COMPARED WITH THAT APPLIED BY CONVENTIONAL TOOLS.
- THESE TOOLS, IN DISTRIBUTING THE TORQUE LOAD TO THE FASTENER THROUGH THE FLATS, DO NOT ONLY ACHIEVE A GREATER FORCE, BUT ALSO LOWER THE POSSIBILITY OF DISTORTION TO THE NUT OR BOLT HEAD.
- HAVING A THIN WALL IS AN ADVANTAGE IN EVERY SOCKET. WE CAN AFFORD TO PROVIDE SUCH A WALL, BECAUSE WITH OUR SPANNERS AND SOCKETS THE FORCE IS ABSORBED WHERE THE WALL HAS IT'S GREATEST STRENGTH.
- THESE SOCKETS ARE CAPABLE OF EXCEEDING THE TIGHTENING TORQUES SPECIFIED IN THE DIN STANDARD BY 70 TO 100%, DEPENDING ON THE SOCKET SIZE.

EFFICIENCY

- BECAUSE WITH THIS TOOL SYSTEM EACH SOCKET OR SPANNER FITS BOTH A METRIC AND INCH SERIES FASTENER, FEWER TOOLS ARE REQUIRED TO PERFORM A RANGE OF OPERATIONS.
- ONE OF THE MOST IMPORTANT FEATURES OF OUR TOOLS IS THE WALL DRIVE PRINCIPLE OF APPLYING PRESSURE TO FLATS OF A NUT OR BOLT MAKING IT VIRTUALLY IMPOSSIBLE TO DAMAGE A FASTENER IN A WORK SITUATION.
- FEWER TOOLS MEANS LESS COST, LESS INVENTORY, AND LESS WEIGHT IN AN OPERATOR'S TOOL BOX.
- AS AN ADDED BONUS THE WALL DRIVE PRINCIPLE OF APPLYING PRESSURE TO FLATS OF A NUT OR BOLT MAKES IT VIRTUALLY IMPOSSIBLE TO DAMAGE A FASTENER IN A WORK SITUATION.

WHY OEL COMBINATION TOOLS?

1. GET MORE USE OUT OF FEWER TOOLS

ONE SET OF TOOLS DOES THE JOB OF BOTH METRIC AND STANDARD, PLUS WORKS ON DAMAGED FASTENERS TOO.

2. SUPERIOR, NO SLIP HOLD!

NO SLIPPING MEANS GREATER SAFETY. NO MORE CUT HANDS, BANGED UP KNUCKLES AND ELBOWS DUE TO WRENCH SLIPPAGE.

3. COMPACT!

YOU' LL CARRY FEWER TOOLS, HAVE A LIGHTER TOOL BOX, AND YOU' LL HAVE A MUCH EASIER TIME FINDING EXACTLY THE TOOL YOU NEED.

4. SAVES TIME! ADDS EFFICIENCY!

ELIMINATE SWITCHING BACK AND FORTH FROM STANDARD TO METRIC. ONE TOOL SET IS ALL YOU' LL NEED! SAVE NEEDLESS TIME SPENT SEARCHING THROUGH TOOLS.
