Self-Paced Online Training

EasyPower®
Power made easy.

Self-Paced Online Training Gives You Flexibility

EasyPower's Self-Paced Online Training program offers online courses that give you the opportunity to learn EasyPower or XGSLab at your convenience. The courses are designed to be a "hands-on" learning experience with the analysis software. To provides you with the necessary tools for immediate benefits for your own power system analysis and designs, we offer the following courses, which can be taken separately as well as an EasyPower bundle package.

EASYPOWER TRAINING

EasyPower Essentials Bundle: Hands-On, Protective Device Coordination and Arc Flash Risk Assessment Online Courses

This complete 3-part bundle is **eligible for 1.5 CEUs** from IEEE (Institute of Electrical and Electronics Engineers) and **costs is $1,250** – a savings of **over $400** over purchasing the courses individually.

Info and registration: easypower.thinkific.com/collections

EasyPower Essentials 1: Hands-On Online Course

The class covers the following: EasyPower overview and features, one-line development, MCCs and panel schedules, application of ShortCircuit™, PowerFlow™ overview, sample cases and applications. This class covers content presented during the first two days of our regional training seminar - EasyPower Hands-On. **Earn 0.5 CEUs – Cost is $500.**

Course Contents

| 25 Videos | 27 Quizzes | 6 Texts | 3 PDFs | 3 Downloads | 8.0 hrs |

Info and registration: easypower.thinkific.com/courses/easypower-hands-on

EasyPower Essentials 2: Protective Device Coordination Online Course

The class covers the following: Overview of PowerProtector™ for protective device coordination studies, proper system coordination and increased reliability, time-current curves. Covering EasyPower's Protective Device Coordination feature, the training demonstrates how to use time current curves (TCCs) and reports for protective device coordination studies, proper system coordination and increased system reliability. **Earn 0.2 CEUs – Cost is $350.**

Course Contents

| 12 Videos | 12 Quizzes | 6 Texts | 1 PDFs | 3 Downloads | 4.0 hrs |

Info and registration: easypower.thinkific.com/courses/protective-device-coordination

EasyPower Essentials 3: Arc Flash Risk Assessment Online Course

The class covers the following: Overview of NFPA 70E and IEEE-1584, PPE requirements, arc flash studies, hands-on EasyPower ArcFlash, and more. **Earn 0.8 CEUs – Cost is $800.**

Course Contents

32 Videos	30 Quizzes	1 Texts	2 PDFs	3 Downloads	8.0 hrs

Info and registration: easypower.thinkific.com/courses/arc-flash

XGSLAB TRAINING

XGSLab and Grounding Analysis Course

This class covers the following: grounding system components, permissible voltage limits per IEEE Std 80, soil model development, fault current split, and more grounding analysis concepts to provide personnel and public safety at power systems. This course shows how to use the XGSLab® software to design and evaluate your grounding systems. **Earn 0.2 CEUs – Cost is $350.**

Course Contents

17 Videos	16 Quizzes	4.5 hrs

Info and registration: easypower.thinkific.com/courses/XGSLabGroundingAnalysis

Self-Paced Online Training Details

You have up to 45 days after your enrollment to complete the course. If you purchased a bundle, you are allowed up to 90 days to complete the courses in the bundle.

Note: If you are purchasing the course for someone else to use, please sign up with their name and contact information so that they receive the appropriate communications about their enrollment and receive CEU certifications in their name.

Reminder: Customers on Premium Maintenance get this training at NO COST!
Let us know if you would like more information on the many benefits of Premium Maintenance.
